Review this Quick Reference Guide for an overview of some important features in your GMC Acadia. More detailed information can be found in your Owner Manual. Some optional equipment described in this guide may not be included in your vehicle. For easy reference, keep this guide with your Owner Manual in your glove box.
Instrument Panel

- Memory Seat Buttons
- Electric Parking Brake Switch
- Instrument Panel Illumination Control
- Turn Signal Lever/Exterior Lamp Controls/IntelliBeam Button
- Driver Information Center
- Windshield Wipers Lever
- Engine Start-Stop Button

- Power Liftgate Control
- Power Mirror/Window Controls
- Cruise Control/Forward Collision Alert/Heated Steering Wheel Buttons
- Audio Next-Previous Favorite Station Controls (behind steering wheel)
- Steering Wheel Adjustment Lever
- Audio Volume Controls (behind steering wheel)
- Driver Information Center Controls/Voice Recognition Buttons

Symbols

- Check Engine
- Engine Oil Pressure
- Lane Keep Assist
- Airbag Readiness
- Cruise Control Set
- Service Electric Parking Brake
- Traction Control/StabiliTrak Active
- Charging System
- Security
- Safety Belt Reminder
- Brake System Warning
- Electric Parking Brake
- IntelliBeam Lighting
Refer to your Owner Manual to learn about the information being relayed by the lights, gauges and indicators on the instrument cluster.

See In Brief in your Owner Manual.
Remote Keyless Entry Transmitter

Lock
Press to lock all doors.

Unlock
Press to unlock the driver’s door. Press again to unlock all doors.

Power Liftgate
Press twice to open or close the liftgate. Press once to stop power liftgate operation.

Vehicle Locator/Panic Alarm
Press and release to locate your vehicle. The exterior lamps will flash and the horn will sound.
Press and hold to activate the alarm. Press it again to cancel the alarm.

Note: To change the remote lock, unlock, and remote start settings, go to Remote Lock, Unlock, Start in the Vehicle Settings menu.

Remote Vehicle Start
Press and release the Lock button and then immediately press and hold the button until the turn signal lamps flash to start the engine from outside the vehicle. After entering the vehicle, turn on the ignition.
• During a remote start, the engine will run for 10 minutes. Repeat these steps to run the engine for an additional 10 minutes. A remote start can be extended once.
• Press and hold the button until the parking lamps turn off to cancel a remote start.

Remote Start and Heated Seats: Select the remote start heated seat option in the Vehicle Settings to have the heated seats turn on during a remote start. The heated seat button indicators do not illuminate and the temperature of the unoccupied seat may be reduced during a remote start.

See Keys, Doors and Windows in your Owner Manual.

Keyless Access System

The Keyless Access System enables operation of the doors, ignition and liftgate without removing the Remote Keyless Entry transmitter from your pocket or purse. The transmitter must be within 3 feet of the door being unlocked or the liftgate.

Keyless Unlocking
With the transmitter within range:
► Press the Lock button on the driver’s door handle to unlock the driver’s door; press it again within 5 seconds to unlock all doors.
► Press the Lock button on a passenger door handle to unlock all doors.
► Press the touchpad on the liftgate handle to open the liftgate.

Keyless Locking
With the ignition off, the transmitter removed from the vehicle, and all doors closed:
► Press the Lock button on any door handle to lock all doors immediately.
► If Passive Locking is turned on, all doors will lock automatically after a short delay.

Note: To change the Keyless Locking and Unlocking settings, go to Remote Lock, Unlock, Start in the Vehicle Settings menu.

See Keys, Doors and Windows in your Owner Manual.
Pushbutton Start

Start
► With the vehicle in Park or Neutral, press the brake pedal and then press the ENGINE START/STOP button to start the engine. The green indicator on the button will illuminate.

Note: The transmitter must be in the vehicle to turn on the ignition. If the transmitter battery is weak, place the transmitter in the pocket in the center console storage area to enable the engine to start. Replace the transmitter battery as soon as possible.

Stop/Off
► Shift to Park and press the ENGINE START/STOP button to turn off the engine. Power will be available for 10 minutes to operate the audio system until the driver’s door is opened and to operate the windows and sunroof until any door is opened.

Accessory Mode
► With the engine off and the brake pedal NOT depressed, press the ENGINE START/STOP button to place the ignition system in the accessory mode. The amber indicator on the button will illuminate.

See Driving and Operating in your Owner Manual.

Auto Engine Stop/Start

A fuel-saving stop/start system has been integrated with the 2.5L engine. While driving, when the brake pedal is applied and the vehicle is at a complete stop, the automatic engine stop/start system may turn off the engine, depending on operating conditions. When the engine is off, the tachometer gauge will read AUTO STOP. Upon releasing the brake pedal or applying the accelerator pedal, the engine will restart. After parking the vehicle and turning off the engine, the tachometer gauge will read OFF.

The engine may remain running or restart if:
• A minimum vehicle speed is not reached.
• The engine or transmission is not at the required operating temperature.
• The outside temperature is not in the required operating range.
• The shift lever is in any gear other than Drive (D).
• The battery charge is low.
• The current settings for the climate control or defog system have not been reached.
• The Auto Stop time is greater than 2 minutes.

See Driving and Operating in your Owner Manual.
Front Seats

Power Seat Adjustments

A. Seat Adjustment
Move the horizontal control to move the seat forward or rearward and to tilt, raise or lower the seat.

B. Seatback Recline Adjustment
Move the vertical control to recline or raise the seatback.

C. Lumbar Support Adjustment
Press the rear control to adjust the amount of lumbar support.

Set Memory Seat Positions
With the ignition On or in Accessory mode:
1. Adjust the seat and power outside mirrors to the desired positions.
2. Press and release the SET button on the driver’s door. A beep will sound.
3. Immediately press and hold button 1 until two beeps sound.
Repeat these steps using button 2 for a second driver.
► To store a seat position for more clearance when exiting the vehicle, repeat these steps using the Exit button instead of button 1 or 2.

Recall Memory Seat Positions
► Press and hold button 1, 2 or Exit until the seat and mirrors reach the set position. The memory/exit positions can be programmed to be recalled automatically.
► To set the Auto Memory Recall or Easy Exit options, go to the Settings > Vehicle > Comfort and Convenience menu.

See Seats and Restraints in your Owner Manual.

Steering Wheel Adjustment

► With the vehicle parked, push down the lever or use the power control on the left side of the steering column to adjust the steering wheel. The steering wheel can be moved up or down and in or out. Pull up the lever to lock the steering wheel in place.

See Instruments and Controls in your Owner Manual.

Optional equipment
Rear Seats

Enter or Exit the 3rd-Row Seats
1. Remove anything on the 2nd-row seat or the floor in front of or behind the seat.
2. Pull the lever on top of the seatback (A) and pull the seat forward. The driver’s side seat will tip and slide forward; the passenger’s side seat will tip, pitch and slide forward.
3. After entering/exiting, push or pull the seatback rearward until the seat locks in place.

Slide the 2nd-Row Seat
► Lift the bar under the seat cushion to slide the seat forward or rearward.

Recline the 2nd-Row Seat
► Pull the lever on the side of the seat cushion (B) and move the seatback to the desired position. Release the lever.

Fold the 2nd-Row Seatback
1. Press the button on the head restraint. It will fold automatically.
2. Pull the lever on the side of the seat cushion (B) and fold the seatback forward or, from the cargo area, pull the top lever (driver’s side seat) or bottom lever (passenger’s side seat) located on the driver’s side of the cargo area (C).

Fold the 3rd-Row Seatback
1. Remove anything on the 3rd-row seat or the floor in front of or under the seat.
2. Pull the strap on the seatback and push the seatback forward.
3. To raise the seatback, pull the strap on the seatback or push up the seatback from inside the vehicle until it locks in place.

Note: The 3rd-row seat can be reclined. It does not slide.

Rear Seat Reminder
A Rear Seat Reminder message may display on the Driver Information Center when the vehicle is turned off. Check the rear seat before exiting the vehicle. The system does not actually detect objects in the rear seat; instead, under certain conditions, it detects when a rear door is opened and closed during a trip, indicating that there may be something in the rear seat.

See Seats and Restraints in your Owner Manual.
Power Liftgate

Open/Close the Power Liftgate
- Press the Power Liftgate button on the RKE transmitter twice.
- Press the Power Liftgate knob on the driver’s door (A).
- Press the touchpad (B) on the liftgate handle to open the liftgate.
- Press the button (C) next to the liftgate latch to close the liftgate.

Programming the Liftgate Height
- Turn the Power Liftgate knob to the 3/4 mode position.
- Open the liftgate.
- Adjust the liftgate manually to the desired height.
- To save the setting, press and hold the button next to the liftgate latch (C) for 3 seconds. The turn signals will flash when the setting is saved.

Hands-Free Operation
- To open or close the liftgate hands-free, kick your foot straight under the left corner of the rear bumper. The RKE transmitter must be within 3 feet of the liftgate.

See Keys, Doors and Windows in your Owner Manual.

Electric Parking Brake
- To apply the parking brake, pull the Parking Brake switch.
- To release the parking brake, turn on the ignition, press the brake pedal, and then press the Parking Brake switch.

Note: The parking brake will release automatically if the vehicle is running, placed into gear and an attempt is made to drive.

See Driving and Operating in your Owner Manual.
Lighting

Exterior Lamps
Rotate the outer band on the turn signal lever to activate the exterior lamps.

AUTO Automatic Headlamp System
Automatically activates the Daytime Running Lamps (DRLs) or the headlamps and other exterior lamps depending on outside light conditions.

Parking Lamps
Headlamps
Fog Lamps
Rotate the inner band down to turn the fog lamps on or off.

IntelliBeam System
The IntelliBeam system automatically turns the high-beam headlamps on/off based on traffic conditions. A green indicator displays on the instrument cluster when the system is on; a blue indicator displays when the high-beam headlamps are on.

Press the button on the end of the lever with the lamp control in the AUTO or Headlamps position to turn the automatic high-beam system on or off.

Note: IntelliBeam activates the high-beam headlamps only when driving over 25 mph. The system is turned off if the high/low-beam changer or the flash-to-pass feature is used. Press the lever button again to turn on the system.

Windshield Wipers
Raise or lower the lever to activate the wipers.

HI Fast Wipes
LO Slow Wipes
INT Intermittent
Rotate the band to adjust the delay between wipes. The wipers activate more often as the band is rotated upward.

OFF
1x Single Wipe
Washer Fluid
Pull the lever toward you to spray washer fluid on the windshield.

Rear Wiper and Washer
Turn the end of the lever to activate the rear wiper.

REAR OFF–INT–ON
Rear Washer Fluid
Push the lever away from you to spray washer fluid on the rear window.
Automatic Operation

- Press AUTO.
- Set the temperature.

The system automatically controls the fan speed, air delivery, air conditioning and recirculation to reach the set temperature. Allow time for the system to reach the desired temperature. If the fan speed or air delivery mode is manually adjusted, automatic operation is canceled.

Rear Climate Controls

The rear climate control settings can be adjusted using the rear climate control buttons on the rear of the center console or the touch screen. The front climate controls must be on to use the rear controls.

See Climate Controls in your Owner Manual.
Driver Information Center (DIC)

The DIC on the instrument cluster displays a variety of vehicle system information and warning messages. Three different displays are available.

![Uplevel display shown]

DIC Controls

Use the controls on the right side of the steering wheel to view and move through the DIC menus.

- Press the ▼ or ▶ button to move between the display zones. Press the left ▼ to go back to the previous menu.
- Press the ▲ or ▼ button to scroll through the menus.
- Press the ✔ button to open a menu or select a setting. Press and hold to reset a value.

Info Pages Menu

1. Use the controls to display the Options menu.
2. Scroll to display Info Pages. Press ▶ to view the pages.
3. Scroll through the list of items.
4. Press ✔ to select or deselect an item to display.

See Instruments and Controls in your Owner Manual.

Audio Steering Wheel Controls

☟ Next/Previous

With the Audio screen displayed on the Driver Information Center, press ▲ or ▼ to seek the next or previous radio station or track.

♫ Volume

(behind right side of steering wheel)

Press the top or bottom button to adjust the volume.

♩ Next/Previous Favorite Station

(behind left side of steering wheel)

Press the top or bottom button to go to the next or previous favorite radio station or track.

See Instruments and Controls in your Owner Manual.

Push to Talk

Press to answer an incoming call or to use natural voice recognition with the Bluetooth or OnStar® system.

End Call/Mute

Press to end or decline a call.

Press to mute/unmute the vehicle speakers.

Optional equipment
IntelliLink Infotainment System

Refer to your Owner Manual for important information about using the infotainment system while driving.

GMC IntelliLink
GMC IntelliLink uses a Bluetooth or USB connection to link to a compatible device, such as a smartphone, cell phone, USB flash drive or portable audio player/iPod® and offers hands-free voice control. For assistance with the IntelliLink system, contact Customer Assistance at 1-855-4-SUPPORT (1-855-478-7767) or go to www.gmc.com and click the Owners link.

IntelliLink Infotainment System

Setting the Time
1. Touch Settings on the Home page.
2. Touch Time and Date.
3. Touch Set Time.
4. Touch the arrows to adjust the hours and minutes.
5. Press the BACK button to exit the menu.

Storing Favorites
Radio stations from all bands (AM, FM or SiriusXM†), media (song, artist, etc.) phone contacts and navigation destinations† can be stored in any order on the favorites list.
1. Display the desired radio station, media favorite, contact or destination.
2. Touch the Interaction Selector at the bottom of the screen to display the favorite screen buttons.
3. Touch and hold one of the favorite screen buttons until a beep is heard.
4. Repeat the steps to store another favorite item.
   Note: To change the number of favorites displayed, go to Radio in the Vehicle Settings menu.

Voice Pass-Thru
Voice Pass-Thru allows access to the voice recognition commands on a compatible cell phone; i.e. Siri or Voice Command. Visit my.gmc.com/learn for more information.
   To activate phone voice recognition, press and hold the Push to Talk button on the steering wheel for 2 seconds.

Natural Voice Recognition†
Control the music source and make phone calls hands-free (after pairing your Bluetooth-enabled phone) using the natural voice recognition system.
1. Press the Push to Talk button on the steering wheel.
2. The radio will say “Say a command,” followed by a beep.
3. After the beep, say what you want it to do using natural speech.
   • Phone (using your paired phone) – Example command: “Call Amanda” or “Call 555-1212”
   • Media Music Device Search (when connected to USB only) – Example command: “Play artist [name]” or “Play song [name]”
   • Radio – Example command: “Tune FM 104.3” or “Tune XM Classic Vinyl”
   • Help – Say “Help” for voice recognition assistance

† Optional equipment
IntelliLink Infotainment System

Apple CarPlay™ and Android Auto™

Apple CarPlay or Android Auto capability may be available through a compatible smartphone. If available, a Projection icon will appear on the home page of the infotainment display.

1. No app is required for Apple CarPlay. Download the Android Auto app to your phone from the Google Play Store.
2. Connect your Apple iPhone or Android phone by plugging the compatible phone USB cable into a USB data port. Use your device’s factory-provided USB cable. Aftermarket cables may not work.
3. The Projection icon will change to Apple CarPlay or Android Auto, depending on the phone. Apple CarPlay or Android Auto may launch automatically upon USB connection. If not, touch the Apple CarPlay or Android Auto icon on the home screen.

For more information on using Apple CarPlay or Android Auto, call 1-855-4-SUPPORT (1-855-478-7767) or visit my.gmc.com/learn.

Portable Audio Devices

USB ports and accessory power outlets are located in the vehicle to connect portable audio devices. Use the USB ports to connect and charge mobile devices.

- Connect an iPod®, iPhone®, MP3 Player, or a USB flash drive to a USB port. Search for music on-screen or by voice commands. Some USB ports are for charging only.
- Touch the Audio icon or press the MEDIA button to select a portable device as the audio source.

OnStar® with 4G LTE and Wi-Fi®

With OnStar 4G LTE and Wi-Fi, up to seven devices (smartphones, tablets and laptops) can be connected to high-speed Internet through the vehicle’s built-in Wi-Fi hotspot.

- To retrieve the SSID and password for the hotspot, press the OnStar Voice Command button on the overhead console or rearview mirror, wait for the prompt, and then say “Wi-Fi settings.” The information will be displayed on the screen.

For assistance, press the blue OnStar button or call 1-888-4-ONSTAR (1-888-466-7827).

Note: See onstar.com for a detailed instruction guide, vehicle availability, details, and system limitations.

Bluetooth® System

Refer to your Owner Manual for important information about using the Bluetooth system while driving.

Before using a Bluetooth-enabled device in the vehicle, it must be paired with the in-vehicle Bluetooth system. The pairing process is disabled when the vehicle is moving. Not all devices will support all functions. Visit my.gmc.com/learn for more information.

Pair a Phone
1. To use voice recognition, press the \textit{Push to Talk} button on the steering wheel; after the beep, say “Pair Phone”; or use the touch screen to select the Phone icon > Phones > Pair Device.
2. Start the pairing process on the phone. Locate your vehicle or GMC IntelliLink on the phone.
3. Confirm the codes that appear on the touch screen and the phone.
4. When pairing is complete, the phone screen is displayed. Your phone book may be downloaded depending on the phone.

Vehicle Personalization

Some vehicle features can be customized using the Settings menus and the touch screen buttons. The Settings menus may include Time and Date, Language, Radio, Vehicle, Bluetooth, Display, Rear Camera, Return to Factory Settings and others.

1. Press the \textbf{MENU} knob or touch Settings on the Home page.
2. Select the desired menu item.
3. Select the desired feature and setting.
4. Press \textbf{BACK} to exit each menu.

See Instruments and Controls in your Owner Manual.

Tire Pressure Monitor

The \textit{Low Tire Pressure} warning light on the instrument cluster illuminates when one or more of the vehicle’s tires is significantly underinflated. Fill the tires to the proper tire pressures listed on the Tire and Loading Information label located below the driver’s door latch. Current tire pressures can be viewed in the Driver Information Center.

See Vehicle Care in your Owner Manual.
Cruise Control

Setting Cruise Control
1. Press the (On/Off) button. The (Cruise Control) symbol will illuminate in white on the instrument cluster.
2. When traveling at the desired speed, press the SET– button to set the speed. The (Cruise Control) symbol will illuminate in green on the instrument cluster.

Adjusting Cruise Control
RES+ Resume/Accelerate
Press to resume a set speed. When the system is active, press to increase speed.

SET– Set/Coast
When the system is active, press to decrease speed.

Cancel
Press to cancel the cruise control without erasing the set speed from memory. Pressing the brake pedal will also cancel the cruise control.

The cruise control set speed is erased when cruise control or the vehicle ignition is turned off.

Adaptive Cruise Control
The system maintains the cruise control set speed and a following gap — the time between your vehicle and a vehicle detected directly ahead — by accelerating or braking automatically.

Following Gap
Press to select a following gap setting of Far, Medium, or Near. This is also the Forward Collision Alert setting.

See Driving and Operating in your Owner Manual.

Automatic Transmission

Electronic Range Select Mode
Electronic Range Select Mode allows you to choose the top gear limit. It can be used to limit the vehicle’s speed when driving on a downhill grade or towing a trailer.
1. Move the shift lever left to L (Low).
2. Press the + (plus) or – (minus) button on the shift lever to increase or decrease the gear range available. The current gear will be displayed on the Driver Information Center.
If vehicle speed is too high or too low for the requested gear, the shift will not occur.

See Driving and Operating in your Owner Manual.
Traction Select

The Traction Select system automatically adjusts various vehicle controls based on driving preferences, weather and road conditions.

- Rotate the Traction Select knob on the center console to select Tour, All-Wheel Drive (AWD models only), Sport, Snow/Ice (front-wheel drive models only), Off-Road (AWD models only), or Tow/Haul.

The AWD indicator will illuminate when an AWD mode is selected.

The vehicle remains in the mode selected through ignition cycles. If Tour or Sport Mode is selected when the vehicle is turned off, the system will start in Tour Mode at the next ignition cycle.

Hill Descent Control

Hill Descent Control sets and maintains vehicle speed from 2–14 mph while descending a very steep incline in a forward or reverse gear.

- Press the Hill Descent Control button on the center console. Vehicle speed must be below 31 mph to turn on the system.
- Increase or decrease speed by applying the accelerator or brake pedal or use the Cruise Control +/- buttons on the steering wheel. The adjusted speed becomes the new set speed. The symbol flashes on the instrument cluster when the system is actively applying the brakes to maintain vehicle speed.

See Driving and Operating in your Owner Manual.

Active Tow

Rear Vision Camera Center Guideline

Active Tow displays a center guideline on the Rear Vision Camera display to help align the vehicle’s hitch bar with a trailer coupler.

1. Touch the Camera button on the touch screen.
2. On the Rear Vision Camera display screen, select the trailer guidance line button to view the center guideline.

Trailer View

- To check the trailer when driving above 5 mph, touch the Camera button on the touch screen. The Rear View Camera displays the rear view of the vehicle. Press X to exit the view. The view is exited automatically after 8 seconds.

See Driving and Operating in your Owner Manual.
Driving Assistance Systems

**Safety Alert Seat**
The driver’s seat pulses — left side, right side or simultaneously — to alert the driver of potential hazards.

- Audible alerts or seat pulsing alerts may be selected. To change the alert settings, go to Settings > Vehicle > Collision/Detection > Alert Type.

**Lane Change Alert with Side Blind Zone Alert**
While driving, the system displays a warning symbol on the left or right side mirror when a vehicle is detected in that side blind zone area or rapidly approaching that area. The warning symbol flashes if a turn signal is activated when a vehicle has been detected.

- To turn the system on or off, go to Settings > Vehicle > Collision/Detection > Lane Change Alert.

**Forward Collision Alert**
The *Vehicle Ahead* indicator illuminates in green on the instrument cluster when a vehicle is detected and illuminates in amber when following a vehicle ahead too closely. If your vehicle approaches another vehicle too rapidly, the *flashes, a visual alert flashes on the windshield and the Safety Alert Seat pulses.

- Press the Collision Alert button on the steering wheel to set the alert timing to Far, Medium, or Near.

**Forward Automatic Braking**
The brakes may be applied in potential collision situations to help reduce damage or help avoid collisions with vehicles directly ahead.

- To set the Forward Collision Alert and Front Automatic Braking systems to Alert and Brake, Alert, or Off, go to Settings > Vehicle > Collision/Detection > Forward Collision System.

**Lane Keep Assist with Lane Departure Warning**
The *Lane Keep Assist* indicator illuminates in green on the instrument cluster when a lane marking is detected. If your vehicle approaches a detected lane marking without using a turn signal in that direction, the system may assist by gently turning the steering wheel and provide a Lane Departure Warning alert by flashing an amber and pulsing the Safety Alert Seat.

- To turn the system on or off, press the Lane Keep Assist button on the center console.

*See Driving and Operating in your Owner Manual.*
Driving Assistance Systems

**Traction Control and StabiliTrak Systems**
The traction control system limits wheelspin and the StabiliTrak® stability control system assists with directional control of the vehicle in difficult driving conditions. Both systems turn on automatically every time the vehicle is started. Turn off traction control if the vehicle is stuck and rocking the vehicle is required.

- Press the **Traction Control/StabiliTrak Off** button on the center console to turn traction control on or off.

**Front Pedestrian Braking**
During daytime driving at speeds between 5 mph and 50 mph, the system detects pedestrians directly ahead up to a distance of approximately 131 feet and displays an amber 🆗 indicator. When approaching a detected pedestrian too quickly, a visual alert flashes on the windshield and the Safety Alert Seat pulses. The system may prepare the brakes or automatically brake the vehicle.

- To set the system to Alert and Brake, Alert, or Off, go to Settings > Vehicle > Collision/Detection > Front Pedestrian Braking.

See Driving and Operating in your Owner Manual.

Parking Assistance Systems

**Front™ and Rear Vision Camera**
When the vehicle is in Reverse, a view of the area behind the vehicle displays on the touch screen. After shifting from Reverse to Drive, a view of the area in front of the vehicle displays. Vehicle speed must be below 5 mph.

- Touch Front or Rear Camera on the camera screen to display the front or rear view.
- Touch the **Guidance Lines** button on the camera screen to turn the guidelines on or off.

**Surround Vision™**
The Surround Vision system displays a bird’s-eye view of the area surrounding the vehicle on the touch screen when the vehicle is in Reverse or Drive below 5 mph.

**Front™ and Rear™ Park Assist**
During low-speed parking maneuvers, the system provides “distance to closest object” information on the Driver Information Center, sounds a beep, and pulses the Safety Alert Seat. When an object is very close, 5 beeps sound from the front or rear of the vehicle and the Safety Alert Seat pulses 5 times.

**Rear Cross Traffic Alert™**
When the vehicle is in Reverse, the system warns of traffic coming in either direction by displaying a visual alert on the touch screen and pulsing the left or right side of the Safety Alert Seat or sounding 3 beeps from the left or right.

- To turn the Parking Assist and Rear Cross Traffic Alert systems on or off, press the **Parking Assist** button on the center console.

See Driving and Operating in your Owner Manual.
Roadside Assistance

1-888-881-3302 TTY Users: 1-888-889-2438

As the owner of a new GMC, you are automatically enrolled in the GMC Roadside Assistance program for up to 5 years/60,000 miles, whichever occurs first, at no expense to you. GMC’s Roadside Assistance toll-free number is staffed by a team of trained advisors who are available 24 hours a day, 365 days a year, to contact a service provider for light services (fuel delivery, jump-starts, flat tire and lock-outs) or make arrangements to tow your vehicle to the nearest GMC dealer for any repairs.

Roadside Assistance and OnStar®

If you require roadside service and have a current OnStar subscription, press the OnStar button and the vehicle will send your current GPS location to an OnStar Advisor who will speak to you, assess your problem, contact Roadside Assistance and relay your exact location so you will get the help you need.

myGMC and OnStar® Mobile Apps

The myGMC mobile app connects owners to a variety of vehicle information and services, such as a searchable Owner Manual, real-time fuel information and Roadside Assistance.

Download the OnStar RemoteLink mobile app and enjoy select features for 5 years from date of vehicle delivery. With a compatible mobile device, owners can access many services, including remotely starting/stopping the vehicle, locking/unlocking the doors, and locating the vehicle on a map (on properly equipped vehicles). To learn more about OnStar services, press the blue OnStar button, call 1-888-466-7827, visit onstar.com or refer to your Owner Manual.

Download the mobile apps from your compatible mobile device’s app store.

GMC Owner Center

Get to know your vehicle inside and out with the GMC Owner Center. Check out personalized information, including an online Owner Manual and helpful how-to videos, track your service history and warranty status, review your current OnStar Vehicle Diagnostics report (active OnStar account required) and more. Create an account today at my.gmc.com.

We recommend always using ACDelco or genuine GM service parts.

Certain restrictions, precautions and safety procedures apply to your vehicle. Please read your Owner Manual for complete instructions.
