Review this Quick Reference Guide for an overview of some important features in your GMC Acadia. Some optional equipment described in this guide may not be included in your vehicle. More information can be found in your Owner’s Manual and at my.gmc.com/learn.

For easy reference, keep this guide with your Owner’s Manual in your glove box.

Certain restrictions, precautions, and safety procedures apply to your vehicle.
Please read your Owner’s Manual for complete instructions.

Refer to your Owner’s Manual to learn about the information being relayed by the lights, gauges and indicators on the instrument cluster.

See In Brief in your Owner’s Manual.
REMOTE KEYLESS ENTRY TRANSMITTER

Lock
Press to lock all doors.

Unlock
Press to unlock the driver’s door. Press again to unlock all doors.

Power Liftgate
Press twice to open or close the liftgate. Press once to stop power liftgate operation.

Vehicle Locator/Panic Alarm
Press and release to locate your vehicle. The exterior lamps will flash and the horn will sound.
Press and hold to activate the alarm. Press it again to cancel the alarm.

Note: To change the remote lock, unlock, and remote start settings, go to Settings > Vehicle > Remote Lock, Unlock, Start.

Remote Vehicle Start
Press and release the Lock button and then immediately press and hold the button until the turn signal lamps flash to start the engine from outside the vehicle. After entering the vehicle, turn on the ignition.

• During a remote start, the engine will run for 10 minutes. Repeat these steps to run the engine for an additional 10 minutes. A remote start can be extended once.
• Press and hold the Power Liftgate button until the parking lamps turn off to cancel a remote start.

Remote Start and Heated/Vented Seats:
Select the remote start heated and vented seat options in the Vehicle Settings to have the heated or vented seats turn on during a remote start. The seat button indicators do not illuminate and the temperature of the unoccupied seat may be reduced during a remote start.

See Keys, Doors and Windows in your Owner’s Manual.

KEYLESS ACCESS SYSTEM

The Keyless Access System enables operation of the doors, ignition and liftgate without removing the Remote Keyless Entry transmitter from your pocket or purse. The transmitter must be within 3 feet of the door being unlocked or the liftgate.

Keyless Unlocking
With the transmitter within range:

➤ Press the Lock button on the driver’s door handle to unlock the driver’s door; press it again within 5 seconds to unlock all doors.
➤ Press the Lock button on a passenger door handle to unlock all doors.
➤ Press the touchpad on the liftgate handle to open the liftgate.

Keyless Locking
With the ignition off, the transmitter removed from the vehicle, and all doors closed:

➤ Press the Lock button on any door handle to lock all doors immediately.
➤ If Passive Locking is turned on, all doors will lock automatically after a short delay.

Note: To change the Keyless Locking and Unlocking settings, go to Settings > Vehicle > Remote Lock, Unlock, Start.

See Keys, Doors and Windows in your Owner’s Manual.
KEYLESS (PUSHBUTTON) START

The Remote Keyless Entry transmitter must be in the vehicle to turn on the ignition.

Starting the Engine
► With the vehicle in Park or Neutral, press the brake pedal and then press the ENGINE START/STOP button to start the engine. The green indicator on the button will illuminate.

Note: If the Remote Keyless Entry transmitter battery is weak, place the transmitter in the pocket in the center console storage area to enable the engine to start. Replace the transmitter battery as soon as possible.

Stopping the Engine/Off
► Shift to Park and press the ENGINE START/STOP button to turn off the engine.

Power will be available for 10 minutes to operate the audio system until the driver’s door is opened and to operate the windows and sunroof until any door is opened.

Accessory Mode
► With the engine off and the brake pedal NOT depressed, press the ENGINE START/STOP button to place the ignition system in the accessory mode. The amber indicator on the button will illuminate.

See Driving and Operating in your Owner’s Manual.

AUTO ENGINE STOP/START OPERATION

A fuel-saving stop/start system has been integrated with the 2.5L engine. While driving, when the brake pedal is applied and the vehicle is at a complete stop, the automatic engine stop/start system may turn off the engine, depending on operating conditions. When the engine is off, the tachometer gauge will read AUTO STOP. Upon releasing the brake pedal or applying the accelerator pedal, the engine will restart. After parking the vehicle and turning off the engine, the tachometer gauge will read OFF.

The engine may remain running or restart when the vehicle is stopped if:
• A minimum vehicle speed is not reached.
• The engine or transmission is not at the required operating temperature.
• The outside temperature is not in the required operating range.
• The shift lever is in any gear other than Drive (D).
• The battery charge is low.
• The current settings for the climate control or defog system have not been reached.
• The Auto Stop time is greater than 2 minutes.

See Driving and Operating in your Owner’s Manual.
Power Seat Adjustments

A. Seat Adjustment
Move the horizontal control to move the seat forward or rearward and to tilt, raise or lower the seat.

B. Seatback Recline Adjustment
Move the vertical control to recline or raise the seatback.

C. Lumbar Support Adjustment
Press the rear control to adjust the amount of lumbar support.

Set Memory Seat Positions
With the ignition On or in Accessory mode:
1. Adjust the seat and power outside mirrors to the desired positions.
2. Press and release the SET button on the driver’s door. A beep will sound.
3. Immediately press and hold button 1 until two beeps sound.
Repeat these steps using button 2 for a second driver.

► To store a seat position for more clearance when exiting the vehicle, repeat these steps using the Exit button instead of button 1 or 2.

Recall Memory Seat Positions
► Press and hold button 1, 2 or Exit until the seat and mirrors reach the set position.
The memory/exit positions can be programmed to be recalled automatically.
► To set the Auto Memory Recall or Easy Exit options, go to Settings > Vehicle > Comfort and Convenience.

See Seats and Restraints in your Owner’s Manual.

STEERING WHEEL ADJUSTMENT
► With the vehicle parked, push down the lever or use the power control on the left side of the steering column to adjust the steering wheel. The steering wheel can be moved up or down and in or out. Pull up the lever to lock the steering wheel in place.

REAR SEATS

**Enter or Exit the 3rd-Row Seats**

1. Remove anything on the 2nd-row seat or the floor in front of or behind the seat.
2. Pull the lever on top of the seatback (A) and pull the seat forward. The driver’s side seat will tip and slide forward; the passenger’s side seat will tip, pitch and slide forward.
3. After entering/exiting, push or pull the seatback rearward until the seat locks in place.

**Slide the 2nd-Row Seat**

- Lift the bar under the seat cushion to slide the seat forward or rearward.

**Recline the 2nd-Row Seat**

- Pull the lever on the side of the seat cushion (B) and move the seatback to the desired position. Release the lever.

**Fold the 2nd-Row Seatback**

1. Press the button on the head restraint. It will fold automatically.
2. Pull the lever on the side of the seat cushion (B) and fold the seatback forward or, from the cargo area, pull the top lever (driver’s side seat) or bottom lever (passenger’s side seat) located on the driver’s side of the cargo area (C).

**Fold the 3rd-Row Seatback**

1. Remove anything on the 3rd-row seat or the floor in front of or under the seat.
2. Pull the strap on the seatback and push the seatback forward.
3. To raise the seatback, pull the strap on the seatback or push up the seatback from inside the vehicle until it locks in place.

**Rear Seat Reminder**

A Rear Seat Reminder message may display on the Driver Information Center when the vehicle is turned off. Check the rear seat before exiting the vehicle.

The system does not actually detect objects in the rear seat; instead, under certain conditions, it detects when a rear door is opened and closed during a trip, indicating that there may be something in the rear seat.

See Seats and Restraints in your Owner’s Manual.
POWER LIFTGATE

Open/Close the Power Liftgate
- Press the Power Liftgate button on the Remote Keyless Entry transmitter twice.
- Press the Power Liftgate knob on the driver’s door (A).
- Press the touchpad (B) on the liftgate handle to open the liftgate.
- Press the button (C) next to the liftgate latch to close the liftgate.

Programming the Liftgate Height
- Turn the Power Liftgate knob to the 3/4 mode position.
- Open the liftgate.
- Adjust the liftgate manually to the desired height.
- To save the setting, press and hold the button next to the liftgate latch (C) for 3 seconds. The turn signals will flash when the setting is saved.

Hands-Free Operation
- To open or close the liftgate hands-free, kick your foot straight under the left corner of the rear bumper. The Remote Keyless Entry transmitter must be within 3 feet of the liftgate.

ELECTRIC PARKING BRAKE
- To apply the parking brake, press the Parking Brake switch.
- To release the parking brake, turn on the ignition, press the brake pedal, and then press the switch.

Note: The parking brake will release automatically if the vehicle is running, placed into gear and an attempt is made to drive.

See Keys, Doors and Windows in your Owner’s Manual.
**Exterior Lamps**
Rotate the outer band on the turn signal lever to activate the exterior lamps.

- **Off/On**

**AUTO Automatic Headlamp System**
Automatically activates the Daytime Running Lamps (DRLs) or the headlamps and other exterior lamps depending on outside light conditions.

- **Parking Lamps**
- **Headlamps**
- **Fog Lamps**
  Rotate the inner band down to turn the fog lamps on or off.

**IntelliBeam System**
The IntelliBeam system automatically turns the high-beam headlamps on/off based on traffic conditions. A green \(\text{indicator}\) displays on the instrument cluster when the system is on; a blue \(\text{indicator}\) displays when the high-beam headlamps are on.

- Press the \(\text{button}\) on the end of the lever with the lamp control in the AUTO or Headlamps position to turn the automatic high-beam system on or off.

**Note:** IntelliBeam activates the high-beam headlamps only when driving over 25 mph. The system is turned off if the fog lamps are turned on.

See Lighting in your Owner's Manual.

**WIPERS AND WASHERS**

**Windshield Wipers**
Raise or lower the lever to activate the wipers.

- **HI Fast Wipes**
- **LO Slow Wipes**
- **INT Intermittent Wipes**
  Rotate the band to adjust the delay between wipes. The wipers activate more often as the band is rotated upward.

- **OFF**
- **1x Single Wipe**

**Washer Fluid**
Pull the lever toward you to spray washer fluid on the windshield.

**Rear Wiper**
Turn the end of the lever to activate the rear wiper.

- **OFF**
- **INT Intermittent Wipes**

**ON**

**Rear Washer Fluid**
Push the lever away from you to spray washer fluid on the rear window.

Automatic Operation
► Press AUTO.
► Set the temperature.

The system automatically controls the fan speed, air delivery, air conditioning and recirculation to reach the set temperature. Allow time for the system to reach the desired temperature. If the functions are manually adjusted, automatic operation is canceled.

Rear Climate Controls
The rear climate control settings can be adjusted using the rear climate control buttons on the rear of the center console or the infotainment screen. The front climate controls must be on to use the rear controls.

See Climate Controls in your Owner’s Manual.

Auto Heated/Vented Seats and Steering Wheel

During a remote start, the auto heated seats and auto heated steering wheel or auto vented seats will activate based on the temperature. The heated or vented seats are canceled when the ignition is turned on. Manually turn on/off the heated or vented seats using the seat controls. Manually turn on/off the heated steering wheel using the steering wheel control.

► To turn the auto heated seats and auto vented seats on or off, go to Settings > Vehicle > Remote Lock, Unlock, Start.

See Seats and Restraints in your Owner’s Manual.
**DRIVER INFORMATION CENTER (DIC)**

The DIC on the instrument cluster displays a variety of vehicle system information and warning messages. Three different displays are available.

**DIC Controls**

Use the controls on the right side of the steering wheel to view and move through the DIC menus.

- Press the ◄ or ► button to move between the display zones. Press the left ◄ to go back to the previous menu.
- Press the ▲ or ▼ button to scroll through the menus.
- Press the ✔ button to open a menu or select a setting. Press and hold to reset a value.

**Info Pages Menu**

1. Use the controls to display the Options menu.
2. Scroll to display Info Pages. Press ► to view the pages.
3. Scroll through the list of items.
4. Press ✔ to select or deselect an item to display.

**AUDIO STEERING WHEEL CONTROLS**

**Push to Talk**

Press to answer an incoming call or to use natural voice recognition with the Bluetooth or OnStar® system.

**End Call/Mute**

Press to end or decline a call.

Press to mute/unmute the vehicle speakers.

**Next/Previous Favorite Station** *(behind left side of steering wheel)*

Press the top or bottom button to go to the next or previous favorite radio station or track.

**Volume** *(behind right side of steering wheel)*

Press the top or bottom button to adjust the volume.

The infotainment system uses a Bluetooth or USB connection to link to a compatible device, such as a smartphone, cell phone, USB flash drive or portable audio player/iPod®, and offers hands-free voice control. For assistance, contact Customer Assistance at 1-855-4-SUPPORT (1-855-478-7767) or visit my.gmc.com/learn.
GMC INFOTAINMENT SYSTEM

Setting the Time
1. Touch Settings on the Home page.
2. Touch Time and Date.
3. Touch Set Time.
4. Touch the arrows to adjust the hours and minutes.
5. Press the BACK button to exit the menu.

Storing Favorites
Radio stations from all bands (AM, FM or SiriusXM†), media (song, artist, etc.), phone contacts and navigation destinations† can be stored in any order on the favorites list.
1. Display the desired radio station, media favorite, contact or destination.
2. Touch the ➕ Interaction Selector at the bottom of the screen to display the favorite screen buttons.
3. Touch and hold one of the favorite screen buttons until a beep is heard.
4. Repeat the steps to store another favorite item.

Note: To change the number of favorites displayed, go to Settings > Radio.

Voice Pass-Thru
Voice Pass-Thru allows access to the voice recognition commands on a compatible cell phone; i.e. Siri or Voice Command. Visit my.gmc.com/learn for more information.

➤ To activate phone voice recognition, press and hold the ✿ Push to Talk button on the steering wheel for 2 seconds.

Natural Voice Recognition†
Control the music source and make phone calls hands-free (after pairing your Bluetooth-enabled phone) using the natural voice recognition system.
1. Press the ✿ Push to Talk button on the steering wheel.
2. The radio will play a prompt followed by a beep.
3. After the beep, say what you want it to do using natural speech.
   • Example Phone command (using your paired phone): “Call Amanda” or “Call 555-1212”
   • Example Media Music Device Search command (when connected to USB only): “Play artist [name]” or “Play song [name]”
   • Example Radio command: “Tune FM 104.3” or “Tune XM Classic Vinyl”
   • Help: Say “Help” for voice recognition assistance

Portable Audio Devices
USB ports and accessory power outlets are located in the vehicle to connect portable audio devices. Use the USB ports to connect and charge mobile devices.

➤ Connect an iPod®, iPhone®, MP3 Player, or a USB flash drive to a USB port. Search for music on-screen or by voice commands. Some USB ports are for charging only.

➤ Touch the Audio icon or press the MEDIA button† to select a portable device as the audio source.

† Optional equipment
With OnStar 4G LTE and Wi-Fi, up to 7 devices (smartphones, tablets and laptops) can be connected to high-speed internet through the vehicle’s built-in Wi-Fi hotspot.

- To retrieve the SSID and password for the hotspot, press the OnStar Voice Command button on the overhead console or rearview mirror, wait for the prompt, and then say “Wi-Fi settings.” The information will be displayed on the screen.

For assistance, press the blue OnStar button or call 1-888-4-ONSTAR (1-888-466-7827).

Note: See onstar.com for a detailed instruction guide, vehicle availability, details, and system limitations.
**UNIVERSAL REMOTE SYSTEM**

The Universal Remote System on the overhead console enables your vehicle to control 3 different devices, ranging from garage doors and gates to home lighting. Go to [www.homelink.com](http://www.homelink.com) for detailed videos and instructions on how to program the Universal Remote System. For additional assistance, call 1-800-355-3515.

---

**VEHICLE PERSONALIZATION**

Some features can be customized using the Settings menus and the infotainment screen buttons. The Settings menus may include Time and Date, Language, Radio, Vehicle, Bluetooth, Rear Camera, Return to Factory Settings and others.

1. Press the **MENU** knob or touch Settings on the Home page.
2. Select the desired menu item.
3. Select the desired feature and setting.
4. Press **BACK** to exit each menu.

---

**SUNROOF/SUNSHADE**

- Press and release the **SLIDE** switch to express-open the sunroof.
- Press and release the **Close** switch to express-close the sunroof.
- To open the sunshade, press the latch button on the handle while pushing up to unlatch it.
- To close the sunshade, pull the handle forward until it latches.

See Keys, Doors and Windows in your Owner’s Manual.

---

**TIRE PRESSURE MONITOR**

The **Low Tire Pressure** warning light on the instrument cluster illuminates when one or more of the vehicle’s tires is significantly underinflated. Fill the tires to the proper tire pressures listed on the Tire and Loading Information label located below the driver’s door latch. Current tire pressures can be viewed on the Driver Information Center.

See Vehicle Care in your Owner’s Manual.

---

Optional equipment
Setting Cruise Control
1. Press the On/Off button. The Cruise Control symbol will illuminate in white on the instrument cluster.
2. When traveling at the desired speed, press the SET– button to set the speed. The symbol will illuminate in green on the instrument cluster.

Adjusting Cruise Control
RES+ Resume/Accelerate
Press to resume a set speed. When the system is active, press to increase speed.

SET– Set/Coast
When the system is active, press to decrease speed.

Cancel
Press to cancel the cruise control without erasing the set speed from memory. Pressing the brake pedal will also cancel the cruise control.
The set speed is erased when cruise control or the vehicle ignition is turned off.

Adaptive Cruise Control
The system maintains the cruise control set speed and a following gap — the time between your vehicle and a vehicle detected directly ahead — by accelerating or braking automatically.

Following Gap
Press to select a following gap setting of Far, Medium, or Near. This is also the Forward Collision Alert setting.

See Driving and Operating in your Owner’s Manual.

Electronic Range Select Mode
Electronic Range Select Mode allows you to choose the top gear limit. It can be used to limit the vehicle’s speed when driving on a downhill grade or towing a trailer.
1. Move the shift lever left to L (Low).
2. Press the + (plus) or – (minus) button on the shift lever to increase or decrease the gear range available. The current gear will be displayed on the Driver Information Center.
If vehicle speed is too high or too low for the requested gear, the shift will not occur.

See Driving and Operating in your Owner’s Manual.
**TRACTION SELECT**

The Traction Select system automatically adjusts various vehicle controls based on driving preferences, weather and road conditions.

- Rotate the Traction Select knob on the center console to select Tour, All-Wheel Drive (AWD models only), Sport, Snow/Ice (front-wheel drive models only), Off-Road (AWD models only), or Tow/Haul.

The AWD indicator will illuminate when an AWD mode is selected.

If the vehicle is in Tour or AWD mode, it will stay in that mode through future ignition cycles.

**Hill Descent Control**

Hill Descent Control sets and maintains vehicle speed from 2–14 mph while descending a very steep incline in a forward or reverse gear.

- Press the Hill Descent Control button on the center console. Vehicle speed must be below 31 mph to turn on the system.

- Increase or decrease speed by applying the accelerator or brake pedal, or use the Cruise Control +/– buttons on the steering wheel. The adjusted speed becomes the new set speed. The symbol flashes on the instrument cluster when the system is actively applying the brakes to maintain vehicle speed.

See Driving and Operating in your Owner’s Manual.

**ACTIVE TOW**

**Rear Vision Camera Center Guideline**

Active Tow displays a center guideline on the Rear Vision Camera display to help align the vehicle’s hitch bar with a trailer coupler.

1. Touch the Camera button on the touch screen.
2. On the Rear Vision Camera display screen, select the trailer guidance line button to view the center guideline.

**Trailer View**

- To check the trailer when driving above 5 mph, touch the Camera button on the touch screen. The Rear View Camera displays the rear view of the vehicle. Press X to exit the view. The view is exited automatically after 8 seconds.

See Driving and Operating in your Owner’s Manual.
DRIVER ASSISTANCE SYSTEMS

Safety Alert Seat
The driver’s seat pulses – left side, right side or simultaneously – to alert the driver of potential hazards.

- Audible alerts or seat pulsing alerts may be selected. To change the alert settings, go to Settings > Vehicle > Collision/Detection > Alert Type.

Lane Change Alert with Side Blind Zone Alert
While driving, the system displays a 🚗 warning symbol on the left or right side mirror when a vehicle is detected in that side blind zone area or rapidly approaching that area. The warning symbol flashes if a turn signal is activated when a vehicle has been detected on the same side.

- To turn on or off, go to Settings > Vehicle > Collision/Detection > Lane Change Alert.

Forward Collision Alert
The 🚗 Vehicle Ahead indicator is green when a vehicle is detected and is amber when following a vehicle ahead too closely. When approaching a vehicle directly ahead too rapidly, a red alert flashes on the windshield and the Safety Alert Seat pulses or beeps sound (if selected).

- Press the 🚗 Collision Alert button on the steering wheel to set the alert timing to Far, Medium, or Near.

Forward Automatic Braking
The brakes may be applied in potential collision situations to help reduce damage or help avoid collisions with vehicles directly ahead.

- To set the Forward Collision Alert and Forward Automatic Braking systems to Alert and Brake, Alert, or Off, go to Settings > Vehicle > Collision/Detection > Forward Collision System.

Lane Keep Assist with Lane Departure Warning
The system may help avoid collisions due to unintentional lane departures. The 🚗 Lane Keep Assist indicator is green if the system is available to assist. If the vehicle approaches a detected lane marking without using a turn signal in that direction, the system may assist by gently turning the steering wheel and displaying an amber 🚗.

If active driver steering is not detected, the amber 🚗 may flash and the Safety Alert Seat may pulse or beeps may sound (if selected) on the side of the departure direction as the lane marking is crossed. In order to use this system safely, the driver needs to steer and be in complete control of the vehicle.

- To turn on or off, press the 🚗 Lane Keep Assist button on the center console.

Optional equipment
Traction Control and StabiliTrak Systems
The traction control system limits wheelspin and the StabiliTrak® stability control system assists with directional control of the vehicle in difficult driving conditions. Both systems turn on automatically every time the vehicle is started. Turn off traction control if the vehicle is stuck and rocking the vehicle is required.

- Press the Traction Control/StabiliTrak Off button on the center console to turn traction control on or off.

Front Pedestrian Braking
During daytime driving, the system detects pedestrians directly ahead up to a distance of approximately 131 feet and displays an amber indicator. When approaching a detected pedestrian too quickly, a red alert flashes on the windshield and the Safety Alert Seat pulses or beeps sound (if selected). The system may prepare the brakes or automatically brake the vehicle.

- To set to Alert and Brake, Alert, or Off, go to Settings > Vehicle > Collision/Detection > Front Pedestrian Detection.

Front and Rear Vision Camera
When the vehicle is in Reverse, a view of the area behind the vehicle displays on the infotainment screen. After shifting from Reverse to Drive, a view of the area in front of the vehicle displays. Vehicle speed must be below 5 mph.

- Touch Front or Rear Camera on the camera screen to display the front or rear view.
- Touch the Guidance Lines button on the camera screen to turn the guidelines on or off.

Surround Vision
The Surround Vision system displays a bird’s-eye view of the area surrounding the vehicle on the touch screen when the vehicle is in Reverse or Drive below 5 mph.

Front and Rear Parking Assist
During low-speed parking maneuvers, the system provides “distance to closest object” information on the Driver Information Center and the Safety Alert Seat pulses or a beep sounds (if selected). When an object is very close, the Safety Alert Seat pulses 5 times or beeps sound (if selected).

Rear Cross Traffic Alert
When the vehicle is in Reverse, the system warns of traffic coming in either direction by displaying a red alert on the infotainment screen and the left or right side of the Safety Alert Seat pulses or beeps sound (if selected).

- To turn the Parking Assist and Rear Cross Traffic Alert systems on or off, press the Parking Assist button on the center console.

See Driving and Operating in your Owner’s Manual.
As the owner of a new GMC, you are automatically enrolled in the GMC Roadside Assistance program for up to 5 years/60,000 miles, whichever occurs first, at no expense to you. GMC’s Roadside Assistance toll-free number is staffed by a team of trained advisors who are available 24 hours a day, 365 days a year, to contact a service provider for light services (fuel delivery, jump-starts, flat tire and lock-outs) or make arrangements to tow your vehicle to the nearest GMC dealer for any repairs.

Roadside Assistance and OnStar®

If you require roadside service and have a current OnStar service plan, press the OnStar button and the vehicle will send your current GPS location to an OnStar Advisor who will speak to you, assess your problem, contact Roadside Assistance and relay your exact location so you will get the help you need.

To learn more about OnStar services, press the blue OnStar button, visit onstar.com, call 1-888-4-ONSTAR (1-888-466-7827), or refer to your Owner’s Manual.

The myGMC mobile app connects owners with a compatible mobile device to a variety of vehicle information and services, such as a searchable Owner’s Manual, real-time fuel information, OnStar Vehicle Diagnostic information and Roadside Assistance. The myGMC mobile app also enables users to send remote commands – including remotely starting the vehicle and locking/unlocking the doors – as well as to locate the vehicle on a map and send destinations to the navigation system (vehicles must be properly equipped).

Download the mobile app from your compatible mobile device’s app store.

Get to know your vehicle inside and out with the GMC Owner Center. Check out personalized information, including an online Owner’s Manual and helpful how-to videos, track your service history and warranty status, review your current OnStar Vehicle Diagnostics report (active OnStar account required) and more. Create an account today at my.gmc.com.

We recommend always using ACDelco or genuine GM service parts.

Certain restrictions, precautions and safety procedures apply to your vehicle. Please read your Owner’s Manual for complete instructions.
